

March 11, 2022

Oregon Department of State Lands
951 SW Simpson Ave., Suite #104
Bend, OR 97702

RE: The Central Oregon community opposes the sale of public land near Cline Buttes to private interests proposing to build a destination resort that would compromise scenic, natural resource, cultural, educational, and recreational land values.

Dear Department of State Lands Officers,

The Cline Buttes area is a beloved natural landscape to the Central Oregon community. Public access to these lands has been essential to ensuring scenic value and providing diverse recreational opportunities. DSL is required, when selling any state lands, to consider their scenic and recreational value to the public. Selling the proposed parcels of land to a prospective destination resort developer is not in the best interest of the Central Oregonian community. This direct sale would limit public access and compromise the land's essential natural values for countless Central Oregonians and visitors who love and enjoy this special landscape.

The Cline Buttes landscape provides essential scenic and recreational opportunities for the hiking, running, biking, bird-watching, equestrian, and hunting communities of Central Oregon. Broad access to a network of quality, multipurpose trails make the Cline Buttes Recreation Area a popular recreational destination.

Over the years, the proposed Thornburgh Resort has drawn widespread criticism from residents across the region. There is growing concern over the resort's proposed water use, its effect on the landscape, and fish and wildlife habitat.

Central Oregon's public lands are a defining treasure of our region. Cline Buttes provides access to a suite of vibrant communities. Cherished public land should not be sold into the hands of private resort developers.

Over 3,500 Community interest groups, local businesses, and individual Central Oregonians strongly oppose the sale of this public state land to the private interests of Central Land and Cattle, LLC for development of their proposed Thornburgh Resort.

Sincerely,

OREGON NATURAL DESERT ASSOCIATION

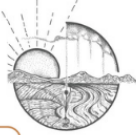

THINK WILD
